

## **Carmon's Gardens CSA**

Season runs for 18 weeks from mid-June until late October.

### **Share Options:**

#### **Full share**

Will consist of a 3/4 bushel box every week for 18 weeks from June 22 - Oct 19

Pick-up Wednesdays at:

-the farm after 11:30 am

-Greens N Grains after 2:00 pm

-Nelson Healing Center, Sturgeon Bay after 3:00 pm

**cost: \$500**

#### **Half share**

Will consist of a 3/4 bushel box every other week as it was last year. Pick-up location and time will be the same as full shares except every other week.

Last year we had some part time residents that needed to customize pick-ups to accommodate their schedules, this seemed to work out ok so we will offer that option again but will have to add a \$50 charge for a custom schedule. A custom schedule would allow you to choose any 9 weeks of the season with an agreed upon pick-up day and time.

**cost: \$300** (or \$350 for a custom schedule)

### **Add-ons:**

We will again be offering the same extra items:

One dozen local eggs sourced from Cherrydale or Sunset farms

A loaf of Island Wheat bread

1 pound of Wisconsin roasted Organic, Fair Trade coffee from Alterra

### **New Additions and Deletions**

This year we are introducing the FREE BOX. It's a simple idea really. At each location there will be an empty box marked FREE BOX. If there is any item in your box that you don't care for you can put it in the free box. And if you see any item in the free box that you would like to have more of you can just take it with you. We'd also like to encourage people to bring their own bags and leave the box. We will provide used paper bags if you forget to bring your own.

## **This Year's Garden**

If there is one thing I am not going to grow as much of, which of course means you will get less of, it is cabbage. And many people asked to have more carrots, beets, onions, and winter squash. Someone suggested Bull's Blood beets and I'm looking forward to trying those as well as parsnips. If there is an item you are fond of that we didn't grow last year please, let me know.

Because of the humid conditions last season many things that could have done better were cut short by fungus related ailments. I would like to have had tomatoes and summer squash available longer for example. And eggplant didn't produce well at all nor did peppers due to a late cold snap.

And again I'm looking forward to potatoes, onions, peas, beans, mixed greens, summer squash and the occasional cabbage as regulars. Also hoping to have more broccoli. Mmmmmmmm, broccoli. So I'd love to hear from you with your suggestions. We have begun taking subscriptions so when you're ready please print and fill out the form below and send it with your check made out to Carmon Mabrey.

Thank You,

Carmon and Kathy
